- 1. The document may be used for information only and may not be exploited for commercial purposes.**
- 2. Any copy of this document or portion thereof must include this copyright notice.**
- 3. Regulations applicable to air law, air traffic and control in the respective countries are reserved in any event. They must be observed and, where applicable, take precedence over any sport regulations**

Note that any product, process or technology described in the document may be the subject of other Intellectual Property rights reserved by the Fédération Aéronautique Internationale or other entities and is not licensed hereunder.

RIGHTS TO FAI INTERNATIONAL SPORTING EVENTS

All international sporting events organised wholly or partly under the rules of the Fédération Aéronautique Internationale (FAI) Sporting Code are termed FAI international sporting events. Under the FAI Statutes, FAI owns and controls all rights relating to FAI international sporting events. FAI Members shall, within their national territories, enforce FAI ownership of FAI international sporting events and require them to be registered in the FAI Sporting Calendar.

An event organiser who wishes to exploit rights to any commercial activity at such events shall seek prior agreement with FAI. The rights owned by FAI which may, by agreement, be transferred to the event organiser include, but are not limited to advertising at or for FAI events, use of the event name or logo for merchandising purposes and use of any sound, image, program and/or data, whether recorded electronically or otherwise or transmitted in real time. This includes specifically all rights to the use of any material, electronic or other, including software, that forms part of any method or system for judging, scoring, performance evaluation or information utilised in any FAI international sporting event.

Any person or legal entity that accepts responsibility for organising a FAI Sporting event, whether or not by written agreement, in doing so also accepts the proprietary rights of FAI as stated above. Where no transfer of rights has been agreed in writing, FAI shall retain all rights to the event. Regardless of any agreement or transfer of rights, FAI shall have, free of charge for its own archival and/or promotional use, full access to any sound and/or visual images of any FAI Sporting event. The FAI also reserves the right to arrange at its own expense for any and all parts of any event to be recorded.

INTRODUCTION TO THE SPORTING CODE OF THE FAI

The Fédération Aéronautique Internationale (FAI) is a world organisation that is concerned with air sport competitions, records, including space activities and other certified performances.

The FAI unites National Air Sport Control (NAC) organisations, who administer air sports activities in their own countries. The NACs, which are members of FAI, when assembled in the annual General Conference, are the highest FAI policy-making body.

The policies and decisions of the General Conference are implemented by the FAI Executive Board and the Air Sport Commissions (ASC). The Executive Board ensures that the Statutes, By-Laws and the Sporting Code are duly observed.

The FAI Sporting Code consists of the General Section and the Specialised Sections.

The FAI Sporting Code deals with three major areas: sporting events such as championships and competitions, records and Achievement badges.

The General Section consists of matters which are common to all air sports and is the responsibility of the FAI Air Sport General Commission (in French, CASI).

The Specialised Sections of the Sporting Code contain rules and procedures for specific air sport activities, and are the responsibility of the appropriate Air Sport Commission (see 2.2.)

Wording:

Words of masculine gender should be taken as including the feminine gender unless the context indicates otherwise.

Words importing the singular will include the plural and vice versa.

1 PRINCIPLES AND AUTHORITY OF FAI

1.1 PRINCIPLES

The FAI is the sole international body in control of air sports and aeronautic and astronautical records in the interests of good sportsmanship and fair competition. The Statutes of FAI specify the Sporting Code as the regulatory system by which the FAI administers and controls all air sport activities.

Additional documents regulating the administration and control of air sport activities include:

- FAI Statutes and By-Laws
- FAI Disciplinary Code
- FAI Code of Ethics
- FAI Jury Guidelines

Missing.

1.2 SPORTING CODE

The Sporting Code consists of the General Section and the Specialised Sections.

1.2.1 General Section

The General Section contains the rules common to all FAI air sport activities. The responsibility for the development and maintenance of the General Section rests with the FAI Air Sport General Commission (CASI).

1.2.2 Specialised Sections

Each Specialised Section contains rules that apply to a specific FAI recognised air sport discipline. The responsibility for the development and maintenance of each Specialised Section rests with the appropriate FAI Air Sport Commission (ASC).

The Specialised Section for each discipline shall not conflict with the General Section.

1.3 SPORTING CODE AUTHORITY

The authority for enforcement of the Sporting Code is shared, as described in FAI Statutes and in the General and Specialised Sections of the Sporting Code, between the:

FAI Active and Associate Members, referred here as NAC (National Airsport Control); FAI Temporary Members for records related matters only.

Air Sport Commissions referred here as ASC.

FAI Executive Board.

1.4 AMENDMENTS

1.4.1 Decision

The General Section of the Sporting Code may be amended by the CASI and each of the Specialised Sections of the Sporting Code may be amended by the appropriate ASC.

Any amendment to the General Section shall be decided by the CASI Plenary Meeting unless the CASI Plenary Meeting exceptionally delegates the CASI Bureau to act accordingly.

The voting system for the CASI Plenary Meeting is that of a simple majority.

1.4.2 Implementation

Amendments to the General Section shall come into force on the date agreed by the CASI Plenary Meeting. The present volume shall be immediately revised in accordance with any changes in the FAI Statutes or By-Laws which affect existing provisions. The appropriate ASC shall determine the regular date for annual amendments to the Specialised Sections of the Sporting Code for which they are responsible.

1.4.3 Publication

Amended versions of the General Section are published by the FAI Secretariat, acting for the CASI. When an amended version is finalised, it will be published on the appropriate FAI web page. The FAI web reference for the latest GS version is as follows:

<https://www.fai.org/document-compression/52718>

1.4.4 Latest Version

A NAC is responsible for making sure that its officials and other holders of the Sporting Code General Section are aware of the above and are using the correct version for the year concerned.

2 CLASSES AND DEFINITIONS

The following general definitions apply to the FAI Air Sport Commissions. Other definitions and sub-classifications may be contained in the Specialised Sections of the Sporting Code.

2.1 CLASSES

The following classes are valid for all FAI sporting events, records attempts and Achievement badges flights:

Class A	Free Balloons
Class B	Dirigibles – Airships
Class C	Aeroplanes, Electric- and Solar-powered Aeroplanes
Class D	Gliders and Motor Gliders
Class E	Rotorcrafts and Multi-Rotors
Class F	Model Aircrafts
Class G	Parachutes and Wind Tunnels
Class H	Vertical Take-off and Landing Aircrafts
Class I	Human-powered Aircrafts
Class K	Spacecrafts
Class M	Tilt-Wing/Tilt-Engine Aircrafts
Class O	Hang Gliders and Paragliders
Class P	Aero-Spacecrafts
Class R	Microlight Aircrafts and Paramotors
Class S	Space Models
Class U	Unmanned Aerial Vehicles

2.1.1 Classes Definition

In defining responsibilities of the FAI Air Sport Commissions and the classifications above and in para 1.2, the following definitions apply. More detailed definitions and sub-classifications may be contained in the specialised sections of the Sporting Code.

2.1.1.1 Aircraft

A vehicle that can be sustained in the atmosphere by forces exerted on it by the air. There are two types of aircraft:

Aerodyne: A heavier-than-air aircraft which derives its lift in flight mainly from aerodynamic forces.

Aerostat: An aircraft lighter than air.

Aeroplane: A fixed wing aerodyne with means of propulsion.

2.1.1.2 Class A

Free Balloon – An aerostat, supported statically in the air, with no means of propulsion by any power source.

2.1.1.3 Class B

Airship or Dirigible – An aerostat equipped with means of propulsion and steering.

2.1.1.4 Class C

Aeroplane – A fixed-wing aeroplane with means of propulsion.

Electrically-Powered Aeroplane: One which can be sustained in level flight in the atmosphere using solely an electrical motor(s). (AL11)

Solar-Powered Aeroplane: One which can be sustained in level flight in the atmosphere using solar energy impacting on its airframe as its energy source.

2.1.1.5 Class D

Glider – A fixed-wing aerodyne capable of sustained soaring flight and having no means of propulsion.

Motor Glider: A fixed-wing aerodyne equipped with means of propulsion, capable of sustained soaring flight without thrust from the means of propulsion.

2.1.1.6 Class E

Rotorcraft – An aerodyne that derives the whole or a substantial part of its lift from a rotary wing system.

Autogyro: A rotorcraft the wings of which are not provided with any form of direct power drive.

Helicopter: A rotorcraft with a power-driven rotor system whose axis (axes) is (are) fixed and substantially perpendicular to the longitudinal axis of the rotorcraft.

Compound Helicopter: A rotorcraft which in flight, and at slow speed derives the substantial proportion of its lift from a rotary wing system but at speed can generate lifting and longitudinal thrust from a suitable combination of rotary wing system, fixed lifting surface(s) and auxiliary propulsor(s). (AL17)

Tilt Rotorcraft: An aerodyne which derives the whole or a substantial part of its lift for vertical or hovering flight by tilting rotor(s) upward to a position substantially vertical, and in forward flight derives its lift from rotors and/or wings, and is capable of autorotation in the event of power failure.

Multi-Rotor: A rotorcraft with a power-driven rotor system whose axes (more than two) are fixed and substantially perpendicular to the longitudinal axis of the rotorcraft.

2.1.1.7 Class F

Model Aircraft – An aircraft of limited dimensions, with or without a power source, not able to carry a human being and to be used for contest, sport or recreational purposes.

2.1.1.8 Class G

Parachute – A collapsible fabric device designed to counteract the effects of gravity and intended to be used to return a suspended load or person safely to the surface of the earth. (AL13)

2.1.1.9 Class H

Vertical Take-Off and Landing Aeroplane – An aeroplane capable of taking off, maintaining hovering or forward flight and landing while obtaining the whole of its lift directly from the thrust of one or more jet engines installed in and integral to the aeroplane and not requiring lift derived from external surfaces during take-off or landing.

2.1.1.10 Class I

Human-Powered Aircraft – An aerodyne which takes off and remains airborne using solely the muscular energy of one or more persons on board. It may not employ any systems of static support (gas, hot air, etc.) and may not carry any kind of apparatus which could receive energy during the flight but may carry apparatus to store muscular energy after take-off.

2.1.1.11 Class K

Spacecraft – Vehicle capable of flight in space.

2.1.1.12 Class M

Tilt-Wing/Tilt Engine Aeroplane – An aircraft capable of both horizontal and vertical flight which, in forward horizontal flight, derives most of its lift from fixed wings and which achieves vertical or hovering flight by tilting the wings or engine(s) upward to position substantially vertical.

2.1.1.13 Class N

Short Take-Off and Landing (STOL) Aircraft – An aeroplane capable of take-off and landing in a short distance.

2.1.1.14 Class O

Hang Glider – A glider capable of being carried, foot launched and landed solely by the use of the pilot's legs.

Paraglider: A hang glider with no rigid primary structure.

2.1.1.15 Class P

Aerospacecraft – A craft capable of flight in space and of sustained and controlled flight in the atmosphere. It must also be capable of soft touchdowns on land or sea.

2.1.1.16 Class R

Microlight: A one or two seat aeroplane with a specified maximum mass and characterised by a very low wing loading.

Powered Hang Glider: A hang glider fitted with means of propulsion capable of launching it and sustaining flight.

Paramotor: A paraglider with means of propulsion capable of launching it and sustaining flight.

2.1.1.17 Class S

Space Model – Spacecraft or Aerospacecraft of limited dimensions and limited payload-carrying capability, unable to carry a human being or commercial payloads.

2.1.1.18 Class U

Unmanned Aerial Vehicle (UAV) – An aerodyne with means of propulsion that does not carry a human, and which is designed for scientific research, commercial, governmental or military purposes.

2.2 AIR SPORT COMMISSIONS

The FAI Statutes specify the areas of responsibility of each ASC. The following table is provided as a guide.

FAI COMMISSION		Sporting Code Section	FAI CLASSES	
Airport Discipline	Initials		Class Letter	DESCRIPTION
Balloonning	CIA	1	A B	Free Balloons Dirigibles, Airships
General Aviation	GAC	2	C H	Aeroplanes Vertical Take-off & Landing Aircrafts
Gliding	IGC	3	D DM	Gliders Motor Gliders

Aeromodelling	CIAM	4 12	F S U	Model Aircrafts Space Models Unmanned Aerial Vehicles
Parachuting and Indoor Skydiving	ISC	5	G	Parachutes Wind Tunnels
Aerobatics	CIVA	6	C D	Aeroplanes Gliders
Hang Gliding	CIVL	7	O	Hang Gliders Paragliders
Astronautics	ICARE	8	K P	Spacecrafts Aero-Spacecrafts
Rotorcraft	CIG	9	E M	Helicopters Tilt Rotorcrafts Autogyros Multi - Rotors Compound Helicopters Tilt-Wing/Tilt-Engine Aircrafts
Microlights and Paramotors	CIMA	10	R	Microlight Aircrafts Microlight Autogyros Powered Hang Gliders Paramotors
General	CASI	11	I	Human Powered Aircrafts
General	CASI	General	All	All Classes
General Aviation	CIACA	13	CS CE	Solar-powered aircrafts Electrically powered aircrafts

E-mail information distribution lists exist for each ASC. The FAI web pages are on <http://www.fai.org>

2.2.1 Commissions Acronyms

CASI – Commission Aéronautique Sportive Internationale (Air Sport General Commission)

CIA – Commission Internationale d’Aérostation (International Ballooning Commission)

CIACA — Commission Internationale des Aéronefs de Construction Amateur (Amateur-built and Experimental Aircraft Commission)

CIAM — Commission Internationale d’Aéromodélisme (International Aeromodelling Commission)

CIG – Commission Internationale de Giraviation (International Rotorcraft Commission)

CIMA — Commission Internationale de Micro-Aviation (International Microlight and Paramotor Commission)

CIVA — Commission Internationale de Voltige Aérienne (International Aerobatics Commission)

CIVL — Commission Internationale de Vol Libre (International Hang Gliding and Paragliding Commission)

GAC – General Aviation Commission

ICARE — International Commission for Astronautics Records

IGC – International Gliding Commission

ISC – International Skydiving Commission

2.3 CONTINENTAL REGIONS

For the purposes of Continental championships and records, the FAI recognises continental regions as follows (in alphabetical order).

2.3.1 Asia

The countries of the Asian Continent and adjacent island countries East of the European Countries defined below in 2.5.3, as far East as Japan and the Philippines. Includes Sri Lanka, Brunei, Indonesia and Chinese Taipei, but excludes Russia.

2.3.2 Africa

Comprising all the countries of the African Continent including the adjacent island countries such as Cape Verde, the Seychelles and Mauritius.

2.3.3 Europe

Comprising all the countries in and to the North of the Mediterranean Sea including adjacent island countries; and the countries to the West of the Caspian Sea; including Iceland, Ireland, Israel, all of Russia, Turkey, and the United Kingdom (~~Great Britain~~), but not including Iran (mentioned because it has a boundary on the west side of the Caspian Sea).

2.3.4 Oceania

Comprising Papua New Guinea, Australia, New Zealand, and the countries of the Pacific Ocean to the East as far as the Marquesas and the Touamotu Archipelago, but not including any country listed under Asia above (e.g. Indonesia, Japan, Philippines).

2.3.5 North America

Comprising the countries from Panama to Canada and the Caribbean Islands including Bermuda.

2.3.6 South America:

Comprising all the countries from Colombia to Chile and Argentina.

2.3.7 Temporary Modifications for Specific Championships

With the consent of the Bureau of CASI, and at the request of the ASC concerned, continental regions can be modified for championship purposes.

2.3.8 Other Regional Groupings

Where championships are regularly approved by FAI in regional groupings which are not the same as the continental regions listed herein, the definition of the regional grouping will be placed in this subparagraph. The only approved regional groupings are Pan-American and Asian-Oceanic.

2.4 OTHER DEFINITIONS

2.4.1 Performances

The definitions of types of performances, flights, courses, etc., shall be determined by each ASC and will be published in the appropriate specialised Section of the Sporting Code.

2.4.2 Achievement Badges

Achievement Badges are benchmarks of accomplishments intended to provide a graduated scale of difficulty to measure and encourage the development of a pilot's skill. They may be issued in any of the FAI disciplines. The requirements needed to obtain Achievement Badges are determined by the ASCs in the Specialised Sections of the Sporting Code.

3 SPORTING LICENCES

3.1 RIGHTS

FAI Sporting Licences are the property of the FAI. Rights attached to them are defined by the FAI.

FAI Members holding FAI sporting powers have the responsibility and obligation to issue FAI Sporting Licences on behalf of FAI to all eligible individual members or to suspend or cancel any that they have issued.

The FAI Secretary General has the responsibility and obligation to issue FAI Sporting Licences on behalf of FAI to all eligible individual or to suspend or cancel any that he has issued.

The administrative process (including cost and duration) to issue FAI Sporting Licences or to suspend or cancel any that have been issued is described in the NACs or FAI regulations.

Only holders of a valid FAI Sporting Licence are permitted to participate in FAI sporting events and record attempts.

3.2 HOLDER'S RESPONSIBILITY

The holder of a Sporting Licence acknowledges that he knows and understands the FAI Sporting Code and commits himself to abide by it.

3.3 ISSUING

A Sporting Licence ~~for one discipline or for multiple disciplines with no indication of a discipline or disciplines~~, is issued as a minimum for 12 months or until the end of the calendar year. This information and the reference to when it is issued are indicated in the Sporting Licence database.

All Sporting Licence are Universal.

3.3.1 By the NACs

Each NAC shall issue FAI Sporting Licences on proof of identity to those of its individual members who are either citizens or residents of that NAC country.

For the definition of citizenship, see 3.4.1. For the definition of residency, see 3.4.2.

3.3.2 By the FAI

The Secretary General shall issue a Sporting Licence to an individual, on his request, if he cannot obtain a Sporting Licence under the provisions of 3.5.

This right shall not be exercised with regard to individuals who are either citizens or residents of a country with a NAC that is active or under suspension.

3.3.3 Database

A Sporting Licence shall be considered to have been issued if the holder is listed on the FAI Sporting Licence database by the authority that is issuing the particular Sporting Licence together with all the required information and the period of validity of that particular Sporting Licence.

The required information in the database must include, but is not limited to:

Name of the issuing authority

Name, date of birth, gender of the holder

~~Contact details~~ Email address of the holder

The only information really needed

Number given by the NAC, the FAI or the ASC

Validity period

~~Disciplines-~~

~~The disciplines included in the database are defined in agreement with the CASI.~~

Suppressed if it is decided that all Sporting Licences will be Universal

3.3.3.1 Other use of Sporting License database

A NAC may use information from the FAI Sporting Licence database such as FAI ID, while producing other internal documents such as membership cards.

3.4 IDENTIFICATION

3.4.1 Citizenship

The citizenship of a person is proved by an identification document stating his citizenship and issued by or on behalf of the government of the country concerned. This document shall be in English and, if not, it must be accompanied by an official English translation.

3.4.2 Residency

The residency of a person means the place where a person usually lives for at least 185 days in a calendar year. The residency of a person is proved by an identification document stating his residence and issued by or on behalf of the government of the country concerned. This document shall be in English and, if not, it must be accompanied by an official English translation.

3.4.3 Person Without Nationality

The identity of a person without nationality is proved by the residence permit issued by or on behalf of the government of that country of residence. This document shall be in English and, if not, it must be accompanied by an official English translation.

3.4.4 Transfer from NAC to NAC

A person shall not, at the same time, hold any Sporting Licence issued by more than one NAC. An individual, who under the provisions of 3.4.2 elects to transfer from one NAC to another, may be issued a Sporting Licence by his new NAC only after notification to his former NAC and after withdrawal of any valid Sporting Licence issued by that former NAC. The Sporting Licence database will be updated by the FAI once documentation from both NACs has been received.

3.4.5 Transfer from FAI to NAC

An individual who has been issued a Sporting Licence by the FAI shall obtain a Sporting Licence from the NAC of the country which he is a citizen or a resident of when this country becomes a FAI Member with sporting powers.

3.4.6 Delegation of Power

A NAC may delegate the power to issue Sporting Licences to other aeronautical bodies within its country and/or involve such bodies in their distribution.

3.5 RIGHTS OF REPRESENTATION

3.5.1 NAC Competitor

A citizen or a resident of a country who is issued a FAI Sporting Licence by a NAC represents the country of the NAC in FAI sporting events and in record attempts.

3.5.2 FAI Competitor

A citizen or a resident of a country who is issued a FAI Sporting Licence by FAI represents the FAI in FAI sporting events and in record attempts.

3.5.3 Multiple Citizenships.

A person who has multiple citizenship may freely select the NAC of one of those countries of citizenship to apply for a FAI Sporting Licence. If such a person subsequently wishes to change to another country of his/her citizenship, this may be done regardless of place of residence, subject to 3.4.4. on changes of representation.

3.5.4 Change of Representation

If a competitor has represented a country in a First Category sporting event, that competitor must not represent another country in any First Category sporting event during the 24 months, or a longer period as specified by a particular ASC, following the month in which the First Category sporting event, in which the competitor represented the first country, takes place.

The above does not apply for competitors representing the FAI.

In the exceptional circumstance where, due to geopolitical change and not personal choice, a competitor becomes a resident of another country and is no longer eligible to hold a Sporting Licence in the prior country, this time period can be reduced on the condition that the NAC concerned give their written approval and the case is reviewed and approved by the CASI Bureau.

3.6 VALIDITY

The holder of a Sporting Licence may be required to produce an official document bearing his photograph and signature in proof of identity.

3.7 SUSPENSION, WITHDRAWAL

When a NAC suspend or withdraw a Sporting Licence, it shall inform the FAI.

3.8 SURRENDER

3.8.1 Disqualification

A competitor who has been disqualified from participation in a FAI sporting event shall be considered to have surrendered his Sporting Licence to the Event Director. Each ASC will determine the grounds for any disqualification.

3.8.2 Consequences

The disqualified competitor shall have no right to claim back any part of his entry fee and will not be eligible for any prizes awarded during the event. Any delay in the surrender of the Sporting Licence shall be added to the period of surrender.

During the period of surrender of the Sporting Licence, participation in any FAI sporting activity, including attempts on records, is prohibited. The NAC will determine any period of surrender in addition to the disqualification.

3.8.3 Disciplinary Action

Disqualification will be grounds for disciplinary action by the NAC concerned. The Event Director shall send details of the surrendered licence to the disqualified competitor's NAC at the end of the event, together with a written summary of the circumstances.

In the event of a Sporting Licence, valid for one airsport discipline, being withdrawn from an individual for disciplinary reasons, the NAC must ensure that all other Sporting Licences issued to that individual by that NAC are also withdrawn.

The NAC will be responsible for updating the Sporting Licence database as soon as possible with any change resulting from such disciplinary action.

When disqualification concerns a FAI Competitor, the Event Director sends the information to the FAI Secretary General. Disciplinary action is taken by the concerned ASC. The FAI is responsible for updating the Sporting Licence database as soon as possible.

4 SPORTING EVENTS

4.1 CLASSIFICATION

A sporting event is an air sport event or other defined contest organised by or on behalf of either a NAC or the FAI. For classification purposes, the definitions in 4.1.1 to 4.1.5 apply. Other definitions and classifications may be contained in the specialised Sections of the Sporting Code.

4.1.1 National Sporting Events

Sporting events in which entry is open only to competitors of the organising NAC.

Erased by mistake.

4.1.2 International Sporting Events

Sporting events in which entry is open to NACs and FAI competitors.

Organised by or under the authorisation of NACs or the FAI, they are considered as Second Category events, unless specified otherwise in the Specialised Sections of the Sporting Code.

In countries that have a NAC, the NAC has the delegated authority to organise events.

~~In countries with no NAC, the FAI has authority to organise events.~~

We are not ready for this. Too many unanswered issues.

When an event is organised by a NAC in another country with a NAC, the host NAC shall authorise the event to take part on its territory. Written proof of this authorisation must be submitted to the concerned Commission with the application form. Such authorisation is considered as a delegation of power to organise the event from the host NAC to the organising NAC.

4.1.3 Regional Championships

4.1.3.1 Continental Championship.

An international sporting event open to NACs competitors within a specific continental region defined in the Sporting Code (see 2.3) and, in case of vacancies, to other non-eligible NACs and FAI competitors.

Continental Championships are First Category sporting events as approved by the ASCs and confirmed by the Executive Board as part of its approval of the FAI Sporting Calendar.

4.1.3.2 Championships for Other Regional Groupings.

As above but for other regional groupings of countries not included in 2.3 but approved by the CASI for the specific championship concerned. This includes groupings within continents or transcontinental groupings.

4.1.4 World Championship

An international sporting event open to NACs and FAI competitors.

World Championships are First Category Events as approved by the ASCs and confirmed by the Executive Board as part of its approval of the FAI Sporting Calendar.

4.1.5 World Air Games

An International Sporting Event involving several FAI air sports at the same time and open to NACs and FAI competitors.

World Air Games as approved by the General Conference are First Category sporting events.

Rules for the World Air Games are available from the FAI. CASI will approve the General Rules for the World Air Games. Where these General Rules are in conflict with the Sporting Code, the General Rules will prevail.

4.1.6 Multi-Sport Competitions

A competition where sporting events for one or more air sports are included, but which may also include sports other than air sports.

To the extent that the events are under FAI control, the FAI Sporting Code and, as far as appropriate, the competition rules for First Category sporting events shall be used.

To fit the concept of such special event, the ASC(s) concerned and the Executive Board may propose specific rules. The final event rules shall be approved by both parties.

4.2 PARTICIPANTS

4.2.1 Competitors

Persons entered and competing in international sporting events and in record attempts. Such persons may

Be NAC competitors and represent the NAC and the country it belongs to.

Be FAI competitors and represent the FAI.

Competitors must have a valid FAI Sporting License.

The Specialised Sections of the Sporting Code may define who is a competitor and who is not.

4.2.2 Team

A group of two or more competitors, the combined performance of which is counted for the result.

In First Category team events, the relevant ASC may restrict the participation of FAI and/or International teams.

In Second Category team events, the organising NAC may restrict the participation of FAI and/or International teams.

4.2.2.1 National Team.

A group of two or more competitors representing one NAC.

4.2.2.2 International Team.

A group of two or more competitors, who collectively represent more than one NAC and/or the FAI.

4.2.2.3 FAI Team.

A group of two or more FAI competitors representing the FAI.

4.2.3 Team Leaders (or Team Managers)

Persons representing the team. They may be competitors.

In First Category events, the team leaders are considered as competitors and must have a FAI Sporting Licence.

4.2.4 Delegations

4.2.4.1 National Delegation

A national delegation includes NAC competitors and team leaders, a head of delegation and other assistants as defined by the ASC in their Specialised Section of the Sporting Code.

4.2.4.2 International Delegation

An International delegation includes International competitors and possibly FAI competitors, team leaders, a head of delegation and other assistants as defined by the Executive Board and/or the relevant ACS.

4.2.4.3 FAI Delegation

A FAI delegation includes FAI competitors and possibly team leaders, a head of delegation and other assistants as defined by the Executive Board and/or the relevant ACS.

4.2.5 Officials

These may be FAI officials or operational officials. Officials may be requested to have specific ASC identification. The Specialised Sections of the Sporting Code may define who is an operational or FAI official and who is not. See Chapter 5 for further regulation.

4.2.6 Assistants

These may be assistants belonging to a delegation or assistants working for the organiser

They include persons participating in a FAI event (doctors, helpers, safety personnel, weathermen, drivers, etc.) and who are not considered as competitors or officials.

4.3 CHAMPIONS

The title conferred upon the winner of a Regional or World Championship.

The winner of a World Air Games competition will be awarded the title World Air Games Champion for the competition concerned.

4.4 RESPONSIBILITY OF PARTICIPANTS

4.4.1 Acceptance of the Sporting Code and Rules

Competitors are required to know, understand, accept and abide by the Sporting Code, the rules for the event and the FAI Code of Ethics. By entering the event, they are deemed to accept them without reservation. They shall act in a sporting manner and their behaviour must be beyond reproach.

It was missing in the previous GS. It is important to specify it as the C of E has been revised.

In First Category sporting events, they should appreciate that they represent the national team of their NAC or, for FAI competitors, the FAI.

In Second Category sporting events, they should appreciate that they are ambassadors for their country and, for FAI competitors, for the FAI.

4.4.2 Doping, Alcohol, Illness and Injury

This is a brief outline from the document FAI Anti-Doping Rules and Procedures, published by FAI and agreed by the World Anti-Doping Agency (WADA) for applications to air sports.

4.4.2.1 Definition

Doping consists of the use or attempted use of one or more prohibited substances or methods, or of blood or blood products, or of manipulation aimed at making these difficult to detect. This may be intentional, unintentional, involve negligence or omission, or in any other circumstances. A doping offence is also committed by refusal or failure to comply with doping control testing, tampering with doping control, possession of a prohibited substance or method, or aiding a doping offence

4.4.2.2 Policy

FAI policy is to prevent misuse, malpractice and cheating, in this case where doping is concerned. Doping is contrary to the FAI principles of equity and fair play and is potentially damaging to the health and safety of competitors in air sports

4.4.2.3 Prohibited Substances.

These are those in the WADA standard list valid at the moment of testing (listed on www.wada-ama.org). The FAI also includes alcohol (above a defined level) for flight safety reasons.

4.4.2.4 Competitors Responsibilities

All competitors entering sporting events under FAI rules shall accept that they may be required to submit to, and cooperate with, doping control measures. Competitors with a documented medical condition requiring the use of a prohibited substance or a prohibited method must before the event concerned have obtained a therapeutic use exemption (TUE) in accordance with FAI anti-doping rules. In addition, for reasons arising during or immediately before the event, a competitor taking any drug or medication, or suffering from a medical condition, illness or injury, which might either compromise safety or invalidate a licence, must inform the Event Director in writing before competing.

4.5 GENERAL REGULATIONS

4.5.1 FAI Authority

Unless otherwise decided by the FAI General Conference, sporting events registered in the FAI Sporting Calendar must be held in accordance with FAI rules.

The rules, programme and all other official documents shall carry the statement of FAI authority and display the FAI logo.

4.5.2 First Category Events

Rules for First Category sporting events shall be contained in the General and specialised Sections of the Sporting Code. Competition rules for a particular event shall not conflict with the rules in the Sporting Code. They shall be approved in advance by the ASCs concerned and must not be changed thereafter except, for rules found in the specialised Section, under provisions defined by the ASCs.

4.5.2.1 Frequency

Each ASC shall determine the frequency and location of its events in accordance with the following principles:

World and Continental Championships should be held approximately every two years in any discipline or class in accordance with the provisions of the Specialised Sections of the Sporting Code.

As far as possible World and Continental Championships should not be held in the same calendar year.

4.5.2.2 Bids

Bids by or on behalf of a NAC to hold a First Category event shall comply with the specific regulations issued by the ASC responsible.

The bid shall include information on restriction of admission to the country or location of the event for participants. If any restrictions are proposed or found, the ASC informs immediately the FAI Executive Board. The Executive Board shall decide whether they are acceptable, having taken advice on sporting aspects from the ASC concerned and the CASI Bureau.

4.5.2.3 Permission to Participate

Every NAC organising an International Sporting Event must make every reasonable effort to ensure admission into its country to participants in the event. If the organising NAC finds that, for any reason, a participant of another country may be or will be refused admission, it shall immediately inform the FAI Secretary General, the ASC President concerned and the NAC of the entrant.

In First Category team events, the relevant ASC may regulate the participation of International and FAI teams.

4.5.2.4 Duration

Events start with the Opening ceremony and end with the Closing ceremony. The ASC may implement their own definitions and timelines in the Specialised Section of the Sporting Code.

4.5.3 Second Category Events

General Rules for Second Category sporting events shall be based, as far as appropriate, on those for First Category sporting events and must not conflict with them in principle except under provisions defined by the ASCs in their Specialised Section of the Sporting Code.

4.5.3.1 Application

Application by or on behalf of a NAC to hold a Second Category event shall comply with the specific regulations issued by the ASC responsible.

~~Application by an organiser for an event in a country with no NAC shall be sent to the FAI Secretary General. The event will be allowed or not by the Secretary General in agreement with the concerned ASC.~~

We are not ready for this. Too many unanswered issues.

4.5.4 Language

The rules and information circulated to NACs and competitors or issued during the event shall be in English and, at the discretion of the organiser, the language of the host country. In all interpretations the English-language version shall prevail.

4.5.5 Insurance

Competition organisers should consider obtaining public liability insurance to protect participants. Organisers should consider recommending that participating NACs and/or competitors carry individual health and accident insurance. Where an organiser of a FAI event provides or facilitates insurance for such an event, then any such insurance must comply with the minimum requirements set by the contest rules.

In First Category events, public liability insurance is mandatory.

4.5.6 Equipment and Devices

In each Specialised Section, the ASC may specify the technical standards and criteria for any equipment, electronic or mechanical devices and scoring systems to be used.

4.6 SPORTING CALENDAR

The FAI maintains and publishes a Sporting Calendar. International sporting events, Regional and World Championships, World Air Games and multi-sports competitions as described in chapter 4 are listed in the Sporting Calendar.

In order to be recognised, an international sporting event must be registered in the FAI Sporting Calendar by the NAC(s) authorising or organising it or by the FAI Secretary General.

Registration may be submitted in any FAI approved format.

Registration must be received by the FAI Secretariat a minimum of thirty days before the starting date of the event or at an earlier time if specified by an ASC in its Specialised Section of the Sporting Code.

Was missing

~~In countries with no NAC, the registration must be done by the FAI a minimum of thirty days before the starting date of the event or at an earlier time if specified by an ASC in its Specialised Section.~~

We are not ready for this. Too many unanswered issues.

In exceptional circumstances, by ASC decision, a registration may be received at a later time.

~~In country that have a NAC, registered sporting events taking place in a year will only be recognised if the organising NAC has fulfilled all its obligations to the FAI.~~

Erased, as it is in conflict with the Statutes which define which penalties are imposed to NAC that do not fulfill all their obligations. We cannot add penalties.

4.7 ENTRY CRITERIA

Competitors and, in First Category events, Team Leaders shall hold a valid FAI Sporting Licence covering the duration of the event.

Entry is open to delegations representing a NAC or the FAI.

4.7.1 First Category Events

A minimum of four NACs or such a higher number of NACs, as is determined by the relevant ASC, shall have entered by the end of the official registration period, as defined by the ASC, with entry fees paid. If there is less than the required minimum of NACs so entered, the relevant ASC shall decide whether the event will take place and shall also decide whether or not the title of Champion will be awarded.

4.7.2 Second Category Events.

Entry is open to **participants** at the discretion of the organisers. ASCs may define in their Specialised Sections of the Sporting Code specific criteria.

A more general term. Refers to 4.2.

4.7.3 Multi-Sport Competitions.

Entry is open to **participants** at the discretion of the **host**. Competitors are selected according to the following principles:

More general terms.

The relevant ASCs sets the minimum performance standards required for participation and the number of competitors.

NAC competitors are chosen in agreement between the NAC and the ASC.

FAI competitors are chosen by the ASC.

4.8 ENTRIES

4.8.1 Application

For First Category event, the entry applications shall be made only through the NAC of which the applicant holds a Sporting Licence or, in the case of a FAI applicant, through the FAI.

For Second Category events, the entry application process **is defined by the ASC in its specific Section of the Sporting Code.**

More precise.

~~For other International events, the entry application process is defined by the CASI in due time.~~

In conflict with 4.1.6.

Organisers of events may not reject entries to events made in good faith and complying with the terms of the entry.

4.8.2 Acceptance

4.8.2.1 Form and Fee

An entry shall be accepted only if made on an official entry form accompanied by the full entry fee and received by the specified closing date.

Entry forms details and procedures shall be determined in agreement between the ASCs and/or CASI and the organiser. The organiser must make such forms and procedures available on any Internet page for the event. Entry forms which are incomplete or contain inaccurate information may not be accepted.

4.8.2.2 Late Acceptance

Late entries may be accepted at the discretion of the organiser only when there is good reason for the delay and if there are sufficient vacancies. Specific conditions may be defined by the ASCs in the Specialised Section of the Sporting Code.

4.8.2.3 Return of Entry Fee

If an event does not take place, entry fees shall be returned in full. If the event does take place, but for reasons of force majeure, it is cancelled or stopped, unused fees, as determined by the relevant ASC, shall be paid back. Before a cancellation decision is made, the relevant ASC shall consult the FAI Secretary General who will inform and consult as necessary. Actions will be assessed on a case-by-case basis.

4.8.3 Change

Change of entries may be made only up to the time stated in the competition rules but necessarily before the first competition flight. Change of competitors, equipment or class can be made only as stated in the rules for the event.

4.8.4 Participant Withdrawal

A competitor or a team which withdraws from an event after having had their entry accepted may be entitled to a full or partial refund of the entry fees paid, in accordance with criteria established by the relevant ASC and/or the rules for the event. Such criteria must be clearly stated in the First Category event bid regulations issued by the relevant ASC.

4.8.5 Age Categories

Each ASC may define age group classification that will be followed for First or Second Category sporting events (Seniors, Juniors, Under-18, Under-20, etc.).

A competitor shall be eligible to compete in an age-group competition under FAI rules if he is within the age range specified in the relevant age group classification. A competitor must be able to provide proof of his age through presentation of a valid passport or other form of documentation issued by a competent authority. A competitor who fails or refuses to provide such proof shall not be eligible to participate in such a group.

ASCs, in their Specialised Section of the Sporting Code, may allow competitors to choose to participate in a higher age group category or to compete in both age group and overall categories.

4.9 SUSPENSION, CANCELLATION OF EVENTS

4.9.1 Force Majeure

At any time, an event may be suspended or cancelled for reasons of force majeure.

The occurrences that could not be anticipated and which are beyond the reasonable control and spheres of responsibility of either the Organiser of an FAI Event or the FAI (or replace by any of the parties of an FAI Organiser Agreement). Such occurrences include but are not limited any abnormally inclement weather, flood, lightning, storm, fire, explosion, earthquake, subsidence, epidemic or pandemic or other natural physical disaster, war, military operations, riot, strike, terrorist action, civil commotion and any regulation or ruling of any relevant government, court or competent national or international authority and others events or occurrences of similar nature and impact, which objectively prevent the staging of the Event or the parties to perform their obligations.

4.9.2 First Category Events

4.9.2.1 Before the Event

The event may be cancelled by the FAI at any time before the date of event for reason of

Persistent breach by the organiser, in the preparation of the event, to the undertakings given in the bid and/or failure to abide by the FAI regulations as well as reasonable directives or instructions

Significant risk to the safety of the participants

Incapacity of the organisers to establish and maintain financial viability

Any other situation in which the safe and appropriate conduct of the event is no longer objectively warranted.

The organiser shall be given a reasonable deadline to remedy the situation prior to cancellation.

Should a cancellation be considered upon suggestion of the ASC, then the ASC President shall inform the FAI Secretary General. The issue may be forwarded to the FAI Executive Board.

The decision to cancel is taken by the Executive Board and is always made in consultation with the ASC concerned.

If a decision is made to cancel the event, the entry fees is returned in accordance with FAI Sporting Code General Section.

A cancellation of the event is deemed to be a cancellation of the Organiser Agreement by the FAI.

4.9.2.2 During the Event

In addition to being the chairman at jury meetings, the Jury President has the right to require the organiser to abide by the FAI Sporting Code and the published rules and regulations for the event. If the organiser fails to do so, the president of the jury has the power to interrupt the event until the situation has been reviewed by the jury. If the situation remains unsatisfactory, the jury has the right to request the cancellation of the event and give advice on the return of the entry fees. The decision to cancel the event and to return or not the entry fees is taken by the Executive Board or its representant after consultation of the concerned NAC and ASC.

4.9.3 Second Category Event

The decision to suspend, postpone or cancel an event and the decision to return or not the entry fees is taken by the organiser with the agreement of the concerned NAC, unless specified otherwise in the ASC Specialised Section of the Sporting Code.

4.10 RESULTS AND PRIZE-GIVING

4.10.1 Jury Approval

The results of an International Sporting event shall be final only when all protests have been dealt with by the jury and the jury has ceased its functions. The final results must be made public before the prize-giving is held.

4.10.2 Notification of Results

4.10.2.1

The results of a First Category event shall be sent electronically to the FAI Secretariat if possible before the prize-giving and in any case within 24 hours of the end of the event.

4.10.2.2

The results of any FAI air sport event shall be made available, in a suitable format, to the host NAC, all competitors and their NACs, and for First Category sporting events to the FAI Secretariat and ASC President without delay.

4.10.2.3

For First Category events, the FAI Secretariat and ASC President shall be advised by the jury President, within a maximum of eight days of the end of the event, of the number of protests made, together with the numbers of protests withdrawn, upheld or failed, and the respective jury decisions.

4.10.3 Prize-Giving

4.10.3.1 Flags and Anthems

At First Category sporting events the FAI flag must be flown and the FAI Anthem played. The flag of the country of competitors placed first, second and third in each class must be flown and the national anthem of the winner played.

4.10.3.2 Medals and diplomas

The FAI shall award gold, silver and bronze medals in each World or Continental Championship and for the World Air Games. These medals shall be supplied by the FAI Secretariat or, if not supplied by the FAI Secretariat, shall conform to the FAI medal specification. They will be awarded to competitors placed first, second and third in the overall Championship, including **eventually** Women and Junior categories.

Rewording

All medals are funded from within the ASC concerned. Costs may be passed on to the organiser if the ASC so decides.

If requested by an ASC, FAI gold, silver and bronze medals may also be awarded to all members of teams competing for a single placing (for example, formation skydiving, team racing in aeromodelling, etc.). Where teams are based on individual results achieved in the championship, gold, silver and bronze medals may be awarded to the team managers only of such teams placed first, second and third, and, if the ASC decides, smaller FAI Team medals may be awarded to all members of such teams. The large FAI medals for winning teams are to be forwarded by the team manager to the appropriate NAC or other body which the team is representing.

A FAI Diploma may be awarded to other competitors if an ASC so decides. The organiser may award further prizes at their discretion, and additional diplomas may be awarded where the results for male and female competitors are separate.

All medals, diplomas and prizes, whether trophies or money, which are referred to in the Sporting Code or the rules of an event, shall be presented not later than at the official prize-giving. Any exceptions to this provision may be authorised by an ASC.

5 CONTROL OF SPORTING EVENTS

5.1 NACS RESPONSIBILITY

5.1.1 Control and Certification

Each NAC is responsible for the control and certification of FAI sporting events, record attempts and Achievement badges flights made under its control.

5.1.2 Verification

The FAI Secretariat and the concerned ASC may at any time request proof that a performance, record or event was controlled in accordance with the Sporting Code rules. It may refuse recognition if it finds the evidence to be insufficient.

5.2 OFFICIALS IN FIRST CATEGORY EVENTS

5.2.1 FAI Officials

FAI Officials are appointed by the ASC concerned and are acting on behalf of the FAI.

FAI Officials are required to know, understand, accept and abide by the Sporting Code.

Unless specified otherwise in the ASC Specialised Section of the Sporting Code:

- Matters of arbitration or rule interpretation shall be the responsibility of the FAI Jury members.
- Matters of evaluation of performance shall be the responsibility of FAI Judges.
- Matters of advice shall be the responsibility of FAI stewards or controllers.

FAI Officials shall hold only one of the above offices in an event. They shall not be a competitor, nor hold any operational position in the organisation.

FAI Officials in any one group or position must be from different active NACs, unless authorised by the concerned ASC.

5.2.2 FAI Stewards and Controllers

Stewards and controllers may be appointed by ASC. Some ASC may have the equivalent of stewards and controllers but may give them other names. Specific rules on the appointment and duties of stewards and controllers may be included by an ASC in its specialised Section of the Sporting Code.

Steward and controllers must not be a member of the organising committee. They may have executive powers as defined in the specialised Section of the Sporting Code.

Stewards and controllers are advisers to the Event Director. They watch over the conduct of the event and report any unfairness or infringement of the rules or behaviour prejudicial to the safety of other competitors or the public or in any way harmful to the sport. They assemble information and facts concerning matters to be considered by the jury. They may attend a meeting of the international jury as an observer or witness.

5.2.3 FAI Judges

ASCs shall appoint judges for events requiring, in whole or in part, evaluation of a performance or for other duties as specified in the specialised Sections of the Sporting Code.

The ASC concerned shall decide upon

- The qualifications, experience and knowledge of rules required for its judges.
- The process for recognition as judges of candidates submitted by NACs.
- How the list of those judges is made public.

The Chief Judge has the responsibility to organise the work to be carried out by the FAI judges and to report results to the Event Director.

5.2.4 FAI Jury

A First Category event shall have an international jury to deal with protests, monitor the conduct of the event and ensure that the results are sent to the FAI and to the concerned ASC.

A Jury Guidelines document is available on the FAI website.

5.2.4.1 Composition

The composition of the FAI jury may be either representative or nominated. The Specialised Sections of the Sporting Code shall state which jury system is to be used and may state further criteria for qualification as a jury member.

5.2.4.2 Representative Jury

A representative jury is one in which the Jury President is appointed by the ASC governing the event and in which the members are one from each competing NAC. They shall qualify for the jury service according to the relevant Specialised Section of the Sporting Code.

5.2.4.3 Nominated Jury

A nominated jury is one in which the President is appointed by the ASC concerned. The members consist of two or four persons appointed by the ASC according to the relevant Specialised Section of the Sporting Code.

5.2.4.4 Jury Members

Jury members must possess a thorough knowledge of the relevant Sporting Codes and the rules for the event. At least one jury member is to be on site during competition operations.

5.2.4.5 Jury President

The Jury President is the chairperson at jury meetings.

The Jury President has the right to require the organiser to abide by the FAI Sporting Code and the published rules for the event. If the organiser fails to abide, the Jury President may suspend the event. If the organiser still does not abide, he may request, with the jury's approval, a cancellation of the event. See 4.9.2.2.

The Jury has the right to cancel the event if the Organizer fails to abide by the FAI Sporting Code and published regulations.

5.2.4.6 Meetings of the Jury

5.2.4.6.1 Attendance

Participation at jury meetings is compulsory for jury members, either in person or remote or as specified on the Specialised Sections of the Sporting Code, except for special reasons such as illness or emergencies. In such cases an eligible replacement nominated by the jury member concerned, or by the President of the ASC or his representative may be accepted by the Jury President.

5.2.4.6.2 Treatment of protests

See chapter 6.

5.2.4.6.3 Recording of Evidence

The record of jury actions, the decision and the reasons for it, and copies of evidence, shall be sent to FAI Secretariat and to the concerned ASC President by the Jury President in case an appeal to FAI is made later.

5.2.4.6.4 Quorum

A quorum for a representative jury is 2/3 of the total membership, including the President of the jury. A quorum for a nominated jury is three, including its President.

5.2.4.6.5 Voting

Decisions shall be reached by a simple majority. A secret ballot shall be held if requested by a jury member.

5.2.4.7 Dissolution of the Jury

The jury shall cease its functions after it has made its decision on all protests. If no protests are outstanding, it shall not cease its functions until the time limit set for the receipt of protests following the last task.

The last action of the jury is to verify and approve the competition results of the event and declare the event valid providing it has been conducted in accordance with the rules and the decisions of the jury.

5.2.5 Operational Officials

Operational Officials are appointed by the organising NAC. An ASC may require to approve such appointments.

Operational Officials include Event (or Meet) Director, Scorer and such other officials as required by the ASC concerned.

5.2.5.1 The Event (or Meet) Director

The Event Director is in overall operational charge of the event, responsible for its good management and its smooth and safe running.

The Event Director may have a Deputy Director and Technical Officials to assist him as defined by the relevant ASC.

The Event Director and his assistants shall be approved by the relevant ASC.

Unless provided differently by the ASCs in their specialised Section of the Sporting Code, the Event Director

- Makes operational decisions in accordance with the rules of the Sporting Code and competition rules.
- Can penalise or disqualify a competitor for misconduct or infringement of the rules.
- Attends meetings of the FAI jury and give evidence if requested.
- Publish the officially accepted entry list prior to the start of the event.
- Issue daily results.
- Send the final entry list, full results and details of protests to the hosting NAC, to the ASC concerned and to the FAI Secretariat within the specified time limits

5.2.5.2 The Scorer

The person responsible for scoring as per the relevant discipline competition rules is responsible for providing the jury with a signed-off copy of the final results to enable the jury to act in accordance with 5.2.2.7.

5.3 OFFICIALS IN SECOND CATEGORY EVENTS

The organisational structure in Second Category sporting events shall be similar to that in First Category sporting events as far as appropriate, but may be simplified. The Specialised Sections of the Sporting Code may detail specific requirements.

5.3.1 Stewards and Controllers

Stewards and Controllers are not mandatory, unless specified in the Specialised Sections of the Sporting Code.

5.3.2 Judges

The judges need not be of international composition unless specified in the Specialised Sections of the Sporting Code.

5.3.3 Operational Officials

As specified by ASCs in their Specialised Sections of the Sporting Code.

5.3.1 Jury

A jury shall be implemented to rule on protests either when needed or before the start of the first competition task. The ASCs may implement their own additional rules or jury tasks in the Specialised Section of the Sporting Code.

5.3.1.1 Composition and Decision Process

The jury need not be of international composition unless specified in the Specialised Sections of the Sporting Code. Each ASC shall define in its Specialised Section of the Sporting Code the rules concerning the composition and the decision process of the jury.

5.4 OFFICIALS FOR RECORDS

5.4.1 Official Observers

The officials who control a record performance must be registered with a NAC as an official observer. Official observers are empowered to control and certify events for FAI records. They must know and understand the Sporting Code and the rules for the specific events to be certificated. ASC shall determine in the Specialised Sections of the Sporting Code qualification criteria for official observers. Such qualification shall be certified by the official observer's NAC. Criteria might be different for records set during a competition.

5.4.1.1 Eligibility

An official observer in any record or attempt must be independent and not be perceived to have a conflict of interests.

5.4.1.2 Presence

An official observer may only certify an event related to a record performance if he is present at the event for which certification is required (unless 5.4.1.3. applies). He may certify a constituent fact if he arrives soon after and there is absolutely no doubt about verification.

5.4.1.3 Video

In the event a performance is evaluated on video evidence, only one official observer needs to be present to verify the recording and the performance may be evaluated using that recording by the required number of official observers at a later date or through an internet connection.

5.4.2 Temporary Status

5.4.2.1 Air Traffic Controllers and First Category Event Officials

Temporary official observer status is assumed for air traffic controllers on duty for observation of take-offs, start and finish lines, turn or control points and landings. Officially registered assistants and officials during a World or Continental Championship or other competitions as specified in the Specialised Sections of the Sporting Code, acting under the authority of the Event Director of the Championship, may also act as official observers.

5.4.2.2 Independent Witnesses

Where an occurrence takes place outside the operational area of an official observer, the occurrence may be certified by two independent witnesses within whose skills or competence it is, who give their addresses and state in writing the information required by the pertinent Section of the Sporting Code. Certification by other than official observers must be countersigned by an official observer after he has verified the statements.

5.4.3 Withdrawal of Official Observer

In case of violation of duty, the appointment of an official observer will be withdrawn. Negligent certifications or wilful misrepresentations will be grounds for disciplinary action by the NAC concerned.

5.4.4 Records During Events

Where a record may have been achieved as part of an international sporting event, the organiser shall, if requested, cooperate with the claimant in assembling and submitting the information and taking other actions required, such as notifying the relevant NAC and FAI within the set period (see 7.8) for international records. The claimant is still responsible for ensuring that claim procedures are carried out.

6 PENALTIES, COMPLAINTS, PROTESTS, APPEALS

6.1 PENALTIES

6.1.1 Penalising

Any participant in a FAI sporting event may be penalised for an infringement of the FAI Sporting Code, **Disciplinary Code and Code of Ethics**. Unless specified otherwise in a Specialised Section of the Sporting Code, infringements are punishable regardless of whether they have been committed deliberately or by mistake. The penalties must be applied in compliance with the provisions defined in the present Sporting Code General Section and in the relevant specialised Section of the Sporting Code.

Missing.

6.1.2 Categories of offences

Unless specified otherwise in a specialised Section of the Sporting Code, the offences may be prioritised and defined as follows.

6.1.2.1 Technical infringements

Violations of rules or failure to comply with requirements which may be considered to have been committed

- By mistake or inadvertence and from which no significant advantage has been gained;
- Deliberately, assuming no advantage could have been gained.

6.1.2.2 Serious infringements

These may be characterised by

- Violations of rules or failure to comply with requirements which are not considered technical infringements.
- Repetition of technical infringements even if committed by mistake or inadvertence.
- Dangerous or hazardous behaviour or action even if committed by mistake.

6.1.2.3 Cheating

Cheating may be defined as an intentional breaking of rule(s) in order to obtain an advantage over other competitors or teams. Cheating is correlated to the deliberate violation of a rule.

6.1.2.4 Unsporting behaviour

Unsporting behaviour is deemed as conduct by a participant who violates the generally accepted rules of sportsmanship and fair play. Typical examples are

- Cheating, repetition of serious infringements of rules, falsification of documents, use of a forbidden equipment, tampering with equipment, failure to comply with requirements to report back or return equipment.
- Unfair action in order to gain a competitive advantage.
- Any conscious effort to influence, intimidate, or threaten other participants with the intent of gaining an advantage, irrespective if this occurs directly before, during, or directly after an event.
- Violation of airspace.

- Deliberate attempts to deceive or mislead officials.
- Abusive or taunting language, false accusation.
- Aggressive or violent action, physical abuse, threats.
- Wilful interference with other participants.
- Use of prohibited substances or drugs.
- Abusive activity on social media.
- Bringing the sport or the FAI into disrepute.

6.1.3 Types of penalties

Each ASC may prescribe in their specialised Section of the Sporting Code what they consider to be technical or serious infringements and the associated penalties. As a guide, penalties could be

- Operational disadvantage such as a percentage reduction of the result of the task or round, or a points' penalisation to the score.
- Warning.
- Disqualification for the task or round.
- Disqualification from an event.

6.1.4 Disqualification from an event

Unsporting behaviour and cheating may be punishable by a disqualification from an event of the participant(s) concerned.

Cheating or unsporting behaviour by any member of a national team may lead to a penalty, including disqualification from an event, for the entire team where appropriate, and not only for the member of the team concerned.

Any person disqualified from an event has no right to claim back any part of the entry fee, and will not be eligible for any diploma, medal or prize awarded for the event.

As soon as possible after the event, the Jury President or the Event Director shall send to the President of the relevant ASC and to the President of the NAC concerned, a written summary of the facts justifying the disqualification from the event.

6.1.5 Penalties imposed during an event

Penalties are imposed by the Event Director.

Penalties may also be imposed by other officials when specified in the Specialised Section of the Sporting Code.

A disqualification from an event may only be imposed by the Event Director after consultation with the FAI Jury.

6.1.6 ASC Bureau actions

After a serious matter has been reported to the ASC President by the Jury President or the Event Director concerned, the ASC Bureau may consider and imposed additional penalties according to the provisions specified in the relevant Specialised Section of the Sporting Code.

6.2 COMPLAINTS

The following provisions relative to complaints apply to First Category events. They also apply to all Second Category sporting events unless specified otherwise in a Specialised Section of the Sporting Code.

The purpose of a complaint is to obtain a correction without the need to make a formal protest.

A complaint shall concern only one matter. In case of different matters, separate complaints must be made.

A joint complaint may be made subject the different complainants have the same position on the matter concerned.

6.2.1 Complaint prior to an event

Complaints must be made in writing in English to the host NAC with copy to the organiser and to the President of the relevant ASC.

A joint complaint must be signed by all the complainants.

For a First Category Event, a complaint may only be made by NAC(s). Except for a complaint concerning a failure of the organiser to comply with regulations for entry or the eligibility or refusal of an entry, the NAC(s) must first ask the organiser for assistance. If dissatisfied, the NAC(s) may then make a complaint to the host NAC.

For a Second Category Event, a complaint may be made by individual(s) or NAC(s). For any matter, the individual(s) or the NAC(s) must first ask the organiser for assistance. If dissatisfied, the individual(s) or the NAC(s) may then make a complaint to the host NAC.

The complaint shall be dealt with by the host NAC as soon as possible and no later than 15 days after the complaint has been received.

In case the complaint has not been dealt before the start of the event, then the complainant(s) have the possibility to complain at their arrival to the event according to 6.2.2

The decision on the complaint shall be sent by the host NAC to the complainant(s) with a copy to the organiser and to the President of the relevant ASC.

~~When the event takes place in a country with no NAC, the FAI is considered as the Host NAC. Complaints must be sent to the FAI Secretary General. Decision on complaints are taken by the FAI Secretary General.~~

We are not ready for this. Too many unanswered issues.

6.2.2 Complaint during an event

Complaints may be made orally or in writing in English or in a language authorised for the event unless specified otherwise in a Specialised Section of the Sporting Code.

In case of a joint complaint made orally, all complainants must be present.

In case of a joint complaint made in writing, the list of the complainants with their signature must be on the complaint paper.

At any time during an event, a competitor(s), or a team leader(s) in case of an event with national teams, who is (are) dissatisfied with any matter must first ask the organiser or the appropriate official for assistance. If still dissatisfied, the competitor(s), or the team leader(s) in case of an event with national teams, may then complain to the Event Director or, where applicable, directly to the official concerned.

Complaints must be made as soon as possible after the occurrence giving rise to the complaint, and shall be dealt with expeditiously.

The jury must take attention not to handle complaints in order to keep its independence in case of a following protest. But there is no objection that the official concerned by a complaint or the Event Director discusses the matter with the jury to get some advice which may minimise the risk for the official to be disproved in the situation of a following protest.

The Event Director will inform the complainant(s) of the result of the complaint as soon as possible after the complaint has been dealt with.

If deemed useful, the Event Director may publish the complaint and its ruling.

When the results of an event may be affected by the ruling of a complaint, they shall not be considered as official until the complaint has been ruled upon.

If dissatisfied by the decision, the complainant(s) concerned must inform the Event Director as soon as possible of the intention to submit a protest. The specialised Section of the Sporting Code may define deadlines to submit a protest. If necessary, the Event Director may decide to delay submitting the protest taking into account the event schedule.

6.2.3 Complaint after an event

Within 15 days after an event, a complaint can be made. Complaints must be made in writing in English with the Event Director with copy to President of the relevant ASC and, where applicable, with the President of the Jury.

Background: the time frame was not defined.

In case of a joint complaint, the list of the complainants with their signature must be on the complaint paper.

For a First Category event, a complaint may only be made by NAC(s).

For a Second Category event, a complaint may be made by competitor(s), or by NAC(s).

The complaint shall be dealt with by the Event Director as soon as possible and no later than 15 days after the complaint was received.

The decision on the complaint shall be sent to the complainant(s) by the Event Director with copy to the President of the relevant ASC and, where applicable, to the President of the Jury.

6.2.4 Complaint for a record attempt.

Complaints must be made in writing in English to the FAI Secretary General with copy to the President of the relevant ASC.

A joint complaint must be signed by all the complainants.

A complaint may only be made by NAC(s).

The complaint shall be dealt with by the relevant ASC Bureau in cooperation with the FAI Secretariat as soon as possible and no later than one month after the complaint was received.

The decision on the complaint shall be sent to the complainant by the President of the relevant ASC with copy to the FAI Secretariat.

6.3 PROTESTS

The following provisions relative to protests apply to First Category events. They also apply to all Second Category sporting events unless specified otherwise in a specialised Section of the Sporting Code.

A protest shall concern only one matter. In case of different matters, separate protests must be made.

A joint protest may be made subject the different protestors have the same position on the matter concerned.

Any protest must be made in writing in English.

The protest is without a suspensive effect of the complaint decision. It must be lodged within two hours after the ruling on the complaint has been published or as defined by the ASC in its specialised Section of the Sporting Code.

The protest must be accompanied by the payment of a protest fee. The amount is established by the relevant ASC for a protest relative to an event, and by CASI for a protest relative to a record attempt.

In case of a joint protest, every protesting person or NAC must pay the protest fee.

The protest fee is returnable only if the protest is withdrawn prior to the beginning of the effective treatment of the protest, or if it is decided that the protest is well founded.

6.3.1 Protest prior to an event

A protest against a decision on a complaint made prior to an event as described in 6.2.1 must be made before the start of the event.

The protest must be sent to the President of the relevant ASC.

For a First Category Event, a protest may only be made by NAC(s).

For a Second Category Event, a protest may be made by individual(s) or NAC(s).

The protest shall be dealt with and ruled upon by the relevant ASC Bureau as soon as possible. It must be dealt no later than 15 days after the protest has been received and, as far as possible, before the start of the event.

In case the protest has not been dealt before the start of the event, then the protestor(s) have the possibility to protest at their arrival to the event according to 6.3.2.

The decision on the protest shall be sent by the President of the relevant ASC to the protestor(s).

6.3.2 Protest during an event

If dissatisfied with the decision on a complaint made during an event, a competitor, or a team leader in the case of an event with national teams, has the right of protest. If a competitor has no separate team leader, he may lodge the protest himself.

Each ASC may define the time limits considered to be appropriate for lodging protests during an event in situations such as

- The validity of an entry, qualification of the officials, contest rules, flying and contest area, etc.
- An incident occurs involving an event official.
- After a task/round is finished.
- After publication of the final results before the prize-giving.

The protest must be submitted to the Event Director together with the protest fee(s).

No person (competitor or team leader depending on the event category) is permitted to present two consecutive protests on the same incident.

Protests relative to an event will be dealt with by the Jury appointed for the event.

The Event Director must present the protest to the Jury President without delay. The Jury President shall call a meeting of the Jury as soon as possible and in any case within 24 hours of receiving a protest, unless a different period is specified in the relevant specialised Section of the Sporting Code, or the local regulations.

The Jury shall hear all involved parties on the matter of any protest, applying the relevant FAI regulations and the rules for the event.

The President of the Jury shall report the result and a summary of any relevant considerations in writing to the Event Director without delay, who shall make public the President's report.

When the results of an event may be affected by the ruling of a protest, results shall not be considered as official until the protest has been ruled upon.

6.3.3 Protest after an event

A protest against a decision on a complaint made after an event as described in 6.2.3 must be sent by the NAC(s) concerned to the President of the relevant **ASC within 15 days after the complaint was ruled.**

Background: the time frame was not defined.

The protest shall be dealt with and ruled upon by the relevant ASC Bureau as soon as possible and no later than one month after the protest has been received.

The decision on the protest shall be sent by the President of the relevant ASC to the protestor(s).

6.3.4 Protest for a record attempt

A protest against a decision on a complaint made for a record attempt as described in 6.2.4 must be sent to the FAI Secretariat by the NAC(s) concerned.

Protests shall be dealt with and ruled upon by the FAI Secretary General in cooperation with the CASI Bureau as soon as possible and no later than one month after the protest was received.

The decision on the protest shall be sent to the protestor(s) by the FAI Secretary General with copy to the CASI President and the President of the relevant ASC.

6.4 APPEALS

A NAC may appeal to FAI on matters concerning international sporting events and record attempts and against a decision relating to a dispute of a sporting nature in accordance with the provisions of this chapter.

The right of appeal to FAI rests with the NAC(s) concerned, except for matters under 4.10.2 for which the person(s) concerned has a right of appeal. The FAI Air Sport General Commission (CASI) is responsible for the treatment of appeals.

An appeal may be made only after a protest has been filed by the appellant on the matter concerned.

A joint appeal may be made subject the different appellants have made a protest and have the same position on the matter concerned.

6.4.1 Notice of appeal

For each appeal, a Notice of appeal must be made in writing in English and addressed to the FAI Secretary General by the authorised representative of the NAC(s) concerned, or by the individual(s) concerned in matters under 4.10.2. It shall be accompanied by all necessary documents.

6.4.2 Administrative fee

An administrative fee must be paid to appeal. In case of a joint appeal, each of the appellants must pay the administrative fee. The amount of the administrative fee is defined by the FAI.

6.4.3 Time limit

An appeal to FAI and the corresponding administrative fee(s) must be received at the FAI Secretariat within 90 calendar days from the incident, action or announcement of the decision leading to the appeal. This time limit may, in special circumstances, be extended by the CASI Bureau.

6.4.4 Treatment of appeals

CASI will establish an International Appeals Tribunal (IAT) of three members one of whom shall be appointed Tribunal Chairperson. The members, who shall be independent of the parties involved, will be appointed by the CASI Bureau, upon recommendation from the CASI President, who shall also designate the Tribunal Chairperson.

In situation of different appeals on the same matter, a unique IAT may be established.

The IAT will work in accordance with the provisions of the FAI International Appeals Tribunal Manual.

In any case, the FAI has the right to publish the IAT judgement and give the names of the persons concerned. These persons may not use the publication of the judgement in order to institute proceedings against the FAI or against any person who made the publication.

A reimbursement of an administrative fee may only be considered if the appellant has withdrawn the appeal prior to the beginning of the effective treatment of the appeal, or if the IAT has decided that the appeal was well founded.

Decisions of the IAT are final unless an appeal is filed within 21 calendar days of the publication date of the Tribunal's decision to the Court of Arbitration for Sport (CAS) in Lausanne, or unless major new factual issues which could have affected the decision are revealed after the decision, in which case CASI shall decide on further action.

7 INTERNATIONAL RECORDS

7.1 DEFINITION

An international record is a World record and/or a Continental record. It represents the best performance certified by the FAI and established in a FAI class, sub-class, category or group as specified in the Sporting Code General and/or specialised Sections. Classes are listed in 2.1 above. Sub-classes, categories and groups shall be defined in the specialised Sections of the Sporting Code.

7.1.1 Types

Types of records (e.g. altitude, altitude with payload, distance and/or speed over different courses) should be specified for each FAI Class in the specialised Section of the Sporting Code.

7.1.2 Compliance

Any performance being submitted for recognition as an international record must be in compliance with all relevant provisions in this General and in the specialised Section of the Sporting Code.

7.1.3 Certification

A performance may meet the certification criteria for a World record and/or a Continental record. The certification claim must state whether certification is requested as a World record, a Continental record or both. The administration fee charged by FAI for certification of each international record will be charged only once, even if both World and Continental

7.1.4 Continental Regions

For record purposes continental regions shall be as defined in 2.5 of this General Section of the Sporting Code for Continental championships, with one exception: an ASC may stipulate in its own specialised Section of the Sporting Code that part of the Russian Federation East of the 61° meridian shall be assigned to Asia.

7.1.5 Continental Records

Each ASC shall decide if Continental records may be established in its activity and, if so, in its own specialised Section of the Sporting Code, shall set out any specific criteria to be applied to the participants and/or other terms and limitations applicable thereto.

7.1.6 New Records

Each ASC shall notify FAI secretariat of all new international records introduced in their specialised Sections of the Sporting Code. The notification must include an example of how the performance is to be calculated.

7.1.7 Other Definitions

Aeronautics – Aerial activity, including all air sports, at a height equal to or less than 100 kilometres above the earth's surface

Altitude – The vertical distance from mean sea level (MSL). See also “QNH”, and “Height”.

AMSL – Above Mean Sea Level

Astronautics – For FAI purposes, activity more than 100 kilometres above the earth's mean sea level

AUW – All Up Weight/Mass

Barogram – Record of atmospheric pressure measured by a barograph or similar instrument

Barograph – A self-recording aneroid barometer

C - (Temperature) – Celsius

Certification – The signature on and preparation of certificates and other documents concerned with the process of flight verification with a view to validation of an FAI Flight Performance

C of A – Certificate of Airworthiness

CP – Control Point

Earth Model – The mathematical surface upon which geometric calculations are performed. Earth models in use are ellipsoidal, spherical, and planar.

Ellipsoid – A three-dimensional ellipse, commonly used as an Earth model. See under WGS84 ellipsoid

FAI Sphere – This has a radius of 6371km exactly, and has a similar volume to that of the WGS84 ellipsoid. Where this is used for distance calculation, the distance for FAI purposes shall be the length of the arc of the great circle joining given points defined by their geographical coordinates, using the same Geodetic Datum for each set of coordinates. A short paper titled “FAI Distance Calculations” giving the appropriate formulas and methodology, is available from the FAI Secretariat. Also, a small PC based distance calculation programme is available by email from the FAI Office.

g – Acceleration due to gravity (9.81 m/sec²)

G – Multiple of gravity force on an aircraft under acceleration

Galileo – The future European GNSS system, equivalent to the Russian GLONASS and the US GPS satellite navigation systems

Geodesic – This describes the shortest distance between two points on the surface of an ellipsoidal world model. It is the ellipsoid equivalent to a Great Circle on a sphere. Once accurate lat/longs are available based on the same geodetic datum, the ellipsoid/geodesic distance between them can be calculated using one of a number of freeware computer programs that are commonly available. For FAI distance calculation purposes, the WGS84 ellipsoid is used (GS 7.3.1.1). A small PC-based distance calculation program for the WGS84 ellipsoid is available by email from the FAI office.

Geodetic Datum – The mathematical model of the earth (and its orientation to the earth) which is used in laying out the positional reference system (lat/long, kilometre grid, etc) before the map projection process is used to transform the three-dimensional surface of the earth model (including topographical features and the reference grid) into a flat map sheet. Some 200 Geodetic Datums (GD) are in current use and generally were chosen for the 'best fit' of their particular mathematical model to the shape of the earth over the map area concerned. Lat/long figures, to be unambiguous, should quote the GD used which is normally given in the data at the edge of each map. The WGS 84 Datum is generally accepted as the best simple mathematical model for the overall shape of the earth, and is an ellipsoid with an equatorial radius of 6,378.1370 km and a polar radius of 6,356.7523 km, and is centred on the earth's centre and orientated to the spin axis. PC-based transformation programmes are available which convert latitudes and longitudes from those relevant to one Geodetic Datum, to WGS 84 or other Datums. Differences vary from a few metres to a few kilometres. These differences are not errors, each lat/long figure is perfectly correct, it is only the different GD (world mathematical model) which changes the lat/long figures for a given point on the earth's surface. Therefore, for distance calculations to be accurate, the lat/longs of points at the beginning and end of the leg concerned must be with respect to the same G. The calculations themselves use these standardised lat/longs, applied to a distance calculation formula based on the FAI earth model. The WGS 84 Datum can be used in deriving lat/longs for long distance calculations and is used by ICAO and national aviation agencies in defining highly accurate standardised runway datums for the future use of GPS as a runway approach aid.

GLONASS – Global Orbital Navigation Satellite System, the Russian GNSS system similar to the US GPS

GNSS – Global Navigation Satellite System (Generic term for all systems such as the Russian GLONASS and the US GPS)

GPS – Global Positioning System (US GNSS System presently managed by the Department of Defense)

GPS (2D) – GPS model whose track log does not include altitude coding.

GPS (3D) – GPS model whose track log includes altitude coding.

Height – The vertical distance from a given height datum such as the take-off place. See also 'QFE', and 'Altitude'.

Homologation – The validation of a Flight Performance by an NAC or FAI for record purposes hPa – Hecto Pascal (Pressure unit, equal to a millibar)

IAS – Indicated Airspeed

ICAO – International Civil Aviation Organisation (HQ in Montreal, Canada) IGC – International Gliding Commission, an Air Sport Commission of the FAI

ISA – International Standard Atmosphere as defined by ICAO.

Reference: Manual of the ICAO Standard Atmosphere (extended to 80 kilometres (262500 feet), Doc 7488-CD, Third Edition, 1993, ISBN 92-9194-004-6.

Min – Minute, unit of time (UT), compared to 'arcmin' which is 1 minute of angle

m/s – Metres per Second

MSL – Mean Sea Level

O&R or OR – Out and Return

OO – Official Observer

OZ – Observation zone, the segment of airspace that a glider must enter to verify flight to a waypoint

QFE – Pressure Setting which indicates zero altitude when at airfield height

QNH – Pressure Setting which indicates height above sea level

Soaring – The utilisation of the vertical component of movements of air in the atmosphere for the purpose of sustaining flight, without the use of thrust from a means of propulsion

Space – More than 100 kilometres above the earth's surface.

Sphere – See FAI Sphere

TAS – True Air Speed

TP – Turn Point, also see WP, Waypoint

Track-log The record of a flight produced by a GPS Track-log point The individual components of a track-log

UT – UTC to the local hour convention

UTC – Universal Time Co-ordinated (ex-GMT)

Validation – An act of ratification or official approval. In FAI terms, the act of approving a Flight Performance (or an element of one such as reaching a Turn Point) for FAI purposes.

Verification – The process of checking and assembling evidence with a view to validating a Flight Performance

Vincenty Method – An empirical method used to calculate the distance between pairs of points on the WGS84 ellipsoid.

Reference: http://www.ngs.noaa.gov/PUBS_LIB/inverse.pdf.

Example: <https://www.fai.org/page/world-distance-calculator>

Vs – Stalling Speed

Wind Tunnel – A device for producing a controlled stream of air in order to simulate the effect of freefall on a human body and enable the performance of freefall manoeuvres

WP, Waypoint – A generic term for either a start, turn or finish point claimed as part of a flight performance.

WGS 84 – See under "Geodetic Datum"

WGS 84 Ellipsoid – This is an ellipsoidal earth model with an equatorial radius of 6,378.1370 km and a polar radius of 6,356.7523 km. It is centred on the earth's centre and orientated to the spin axis. It is

generally accepted as the best simple mathematical model for the overall shape of the earth and is used as the Geodetic Datum in many aeronautical maps. See also under “Geodesic” and “Geodetic Datum”. For distance calculations using the WGS84 ellipsoid, a small PC-based program is available by email from the FAI Office.

7.2 ABSOLUTE RECORDS

The types of records recognised by FAI as absolute records shall be determined by the ASCs and will be shown in the specialised Sections of the Sporting Code.

7.3 HOLDERS OF RECORDS

An international record may be held by a person or team, or as otherwise stated in the respective specialised Section of the Sporting Code. Team may be composed of FAI or International competitors.

Where an international record is in the name of more than one person or NAC, FAI will list those persons and NACs in alphabetical order unless a different order is directed by the claimants' NAC.

7.4 ADMINISTRATION

7.4.1 NACs Responsibility

The NAC which issues the FAI Sporting Licence of any person attempting an international record or, in cases of team attempts, the NAC that issued Sporting Licences to the largest number of team members (the Organising NAC) is responsible for certifying the international record claim dossier prior to submission to FAI, regardless of where the record attempt took place.

7.4.2 Multi-NACs Issues

7.4.2.1 Over Foreign Territory

When a record attempt both originates and terminates in a country other than that of the organising NAC, the local NAC shall control the attempt by authorising the official observers involved in accordance with 5.2.1. The local NAC in these circumstances shall be known as the controlling NAC. If necessary, and/or if so requested by the organising NAC, a controlling NAC shall also provide control of record attempts which either originate or terminate in its country.

7.4.2.2 Over Two Territories

Where the record attempt crosses or is made over the territory of another NAC, the organising NAC is responsible for informing, if necessary and applicable, that other NAC in advance of a planned record attempt over its territory.

7.5 RESPONSIBILITY FOR AUTHORISATIONS

A person wishing to attempt a record is responsible for everything required for the execution, control and certification of the attempt, including obtaining any authorisations, permits and clearances. When a claim is submitted, it must be shown that a valid FAI Sporting Licence, which covered the period of the performance, was held by the claimant.

7.6 SIMULTANEOUS RECORDS

On any date that a record is broken by more than one claimant, the best performance only will be awarded the new record except if an Air Sport Commission has a special provision for such a situation which is described in its specialised Section of the Sporting Code.

Simultaneous records are possible if more than one claimant performing at the same time achieves exactly the same performance in the same conditions as another. In this case the record will be registered in the joint names of the concerned persons.

In all cases, not only the date of the performance should appear in the record claim but also the local time at which the performance occurred and, where applicable, the round of the competition in which it took place.

7.7 MULTIPLE RECORDS

A person or a team may attempt more than one record in the same attempt provided that the records belong to the same Class, are permitted in the Sporting Code concerned, and are controlled by the same verification and certification methods as if they were separate records.

7.8 CERTIFICATION

7.8.1 Supporting File

An international record claim must be supported by a file containing all the information and certification necessary to prove that the conditions have been met. The file must be submitted by the organising NAC and must be received by the FAI Secretariat within 120 days of the attempt, unless an extension is granted by the relevant ASC president having reviewed any factors that make it difficult to submit the file in the normal timescale. The request for extension shall be submitted to the ASC President within the time limit described above and a copy of the request submitted to the FAI. The FAI secretariat shall acknowledge receipt of the record file to the claimant and the organising NAC. The file must be in compliance with any requirements set out in the relevant specialised Section of the Sporting Code or, if none are specified, in any appropriate format and shall include a statement that the attempt was made in accordance with the Sporting Code.

7.8.2 Record Claim

The record claim shall include, as applicable:

- Classification (class, subclass, etc.) of the record being claimed;
- Its title and description, including the record performance;
- Place (course), date of the attempt and local time of the performance;
- Name of competition and competition round in which the performance was achieved;
- Name, gender and citizenship of the competitor (s) and/or country represented;
- Number and expiry date of the competitor's Sporting Licence and the name of the issuing NAC;
- Certification by the official observers appointed in accordance with 5.2.1;
- Type of aircraft and registration or identification marks;
- Type of engine(s) or power source, power and identification number(s);
- Name of the NAC responsible for the control of the record attempt;
- Any other information required by an ASC, as specified in the specialised Sections of the Sporting Code.

7.8.3 Submission

Written notice (to include fax and email) and telephone notice formally registered by FAI of a preliminary claim for an international record must be submitted by either the organising or the controlling NAC, or the official observer controlling the attempt, or the sport event organisation (5.3), or the claimant and must be received by FAI within 7 days of its completion as a record attempt, unless an extension is granted by the relevant ASC President having reviewed any factors that may have made it difficult to submit the file in the normal timescale. The FAI secretariat shall acknowledge the receipt of the notice of a preliminary claim by posting the details on the FAI website and by way of an email notification to NACs, ASCs delegates and Presidents. NACs are expected to keep the claimant informed of the progress of claims.

7.8.4 First Category Events

Each ASC may include provisions in its specialised Section that will allow notification directly to FAI of a record performance set during a First Category event. Such a notification will not be required to follow the provisions of 7.8.1 and 7.8.3, but must include information necessary to prove that the conditions have been met. However the notification sent directly to FAI must also be sent to the record claimants NAC, so that the requisite administration fee may be paid.

7.9 VERIFICATION

The FAI Secretariat and the concerned ASC reserve the right to request further information or documentation and shall advise the NAC of acceptance or refusal without delay. In the event that some evidence is missing or there might be a conflict within the rules, the FAI will request the ASC concerned to give advice. The FAI will give a written explanation of any refusal.

7.10 NOTIFICATION

7.10.1 Before Certification

The FAI Secretariat shall inform as soon as practicable of record claims by posting the details on the FAI website and by way of an email notification to NACs, ASCs delegates and Presidents.

7.10.2 After Certification

The FAI Secretariat shall notify all NACs of the final certification of new records by posting the details on the FAI website and by way of an email notification to NACs, ASCs delegates and Presidents. Certification shall become final if no appeal has been lodged against it within 90 days of the date of publication of the original notification.

8 MEASUREMENTS, CALCULATIONS, MARGINS

8.1 MEASUREMENTS

Units

The system of units to be used by FAI shall be the metric system (SI units), with the exception of angular units. Bearings shall be measured in degrees clockwise from True North. Coordinates shall be in units of degrees, with a preferred format of 'degrees and decimal minutes.'

8.1.1 General

The methods and standards of precision for measuring and recording of position, distance, time, altitude, mass and other primary values, as well as equipment technical standards, shall be determined by each ASC and specified in the appropriate Section of the Sporting Code. In the case of record flights, the conformity of the specific measuring and recording instruments and equipment used shall be checked by the official observer to be of the same type as approved by the respective FAI ASC. Note: in this Section, the term 'approved' means approved by the ASC concerned.

8.1.2 Position

Position may be measured directly, by reference to approved maps, or by GNSS fix. If by GNSS fix, all fixes, points, locations, coordinates and any maps concurrently used must be referenced to the WGS84 Earth Datum.

8.1.3 Distance

Distance may be measured directly or determined from approved maps.

8.1.4 Bearing

Bearing may be measured directly or determined from approved maps. The bearing at a point is the bearing from that point.

8.1.5 Time

Elapsed times and time of the day may be measured either by approved timepieces or by GNSS.

8.1.6 Altitude

Pressure altitude may be measured using approved pressure-measuring devices. Geometric altitude and/or height above the surface may be measured using GNSS, optical methods or radar.

8.1.7 Mass

Mass shall be determined using scales and methods approved by the ASC concerned. The take-off mass of an aircraft shall be its total mass at take-off including flight crew.

8.2 CALCULATIONS

8.2.1 General

The methods and standards of precision for calculating distance, bearing, altitude, speed and scores shall be determined by each ASC and specified in the appropriate Section of the Sporting Code. Note: in this Section, the term 'approved' means approved by the ASC concerned.

8.2.2 Earth Model

The ASC are responsible for the specification of the basis of geometric calculations. If not otherwise specified by the ASC, the earth model to be used for geometric calculations shall be the WGS84 ellipsoid. If a sphere is specified, it shall be the 'FAI Sphere.' If a planar model is to be used, then the projection must be strictly defined.

8.2.3 Distance

If calculated from coordinates, distance shall be taken as the length of the geodesic on the earth model in use.

8.2.4 Bearing

If calculated from coordinates, bearing shall be taken as the initial bearing of a geodesic from a given point on the earth model in use.

8.2.5 Altitude

The methods for calculations of corrections to measured altitudes (if required) shall be specified by the ASC. If a standard pressure model is required, it shall be the ICAO standard atmosphere.

8.2.6 Speed

Speed will be calculated from distances and elapsed times.

8.2.7 Scores

The methods for calculations of scores shall be specified by the ASC.

8.3 MARGINS AND PRECISION

8.3.1 Margin

Each ASC is responsible for specifying the margins by which a record claim must exceed an existing record, subject to paragraph 8.4.2 of this chapter.

8.3.2 Precision

Each ASC shall determine the precision with which a performance will be recorded. A performance must not be certified with a higher precision than the technologies used to determine it.

8.4 APPROVALS

8.4.1 Method

As an alternative to specifying algorithms, each ASC may meet its obligation to specify computational methods by approving specific flight evaluation and scoring programs. If this method is used, then the ASC must implement procedures for testing, approval, and version control of the flight evaluation and scoring programs.

8.4.2 Control

The FAI Executive Board reserves the right to review the standards of certification and the methods of analysis of any international record claims.
