

IGC Plenary 2007

### **Report of IGC Web Specialist**

Not many changes have been made to the IGC web site during the past year. As I reported last year, the new content management system makes it easy to post topical articles, such as the newsletters from the IGC President. It has also facilitated greatly the cooperation with the IGC Bureau in preparing the agenda and the accompanying documents for the plenary meeting.

The FAI office is still working on the data base of past championships. In the meantime, all results since 1999 are available from the Pilot Ranking List pages.

Since I have had, as usual, no feedback from users of the users, I intend to launch a survey, beginning with a questionnaire which will be distributed at the coming IGC plenary meeting.

Peter Ryder, January 7, 2007.
