2013 Freefall Style and Accuracy Landing Report

The 13th FAI World Cup Freefall Style & Accuracy Landing, 1st FAI Junior World Cup Freefall Style & Accuracy Landing and 7th FAI European Freefall Style & Accuracy Landing Championships, 4th FAI Junior European Freefall Style & Accuracy Landing Championships in Cheboksary/Russia from 22nd to 26th August were the most important events in 2013.

Following competitors participated in the disciplines of Freefall Style and Accuracy Landing: 65 Male (17 Nations) & 45 Female (12 Nations) Junior 18 Male (10 Nations) & 11 Female (7 Nations).

Igor Tiorlo, Chief Judge and member of the Committee, was present in June in Russia and checked the electronic measurement and evaluation system from Russia. We accepted the Russian system after we had received his report.

Bob King gave them his scoring software, which is programmed for exactly these events, but they didn't use it. During the competition they used their own scoring system. Because of that there were significant delays as well.

From 31 July to 04 August 2013 the "48th Bulgarian Open National Parachuting Championship and Open Championship of South-East Europe in Accuracy Landing was organized by the National Aero Club of Bulgaria and Aero Club Montana. I was checking the area and the organisation during this championship.

The European Tour in Accuracy Landing was again carried out in six different countries. Between 30 and 45 teams participated in all six competitions.

The 4th Dubai International Parachuting Competition and Gulf open will take place from 29 November to 9 December 2013. Following competitors are register for Accuracy Landing: 22 Teams and 19 individual Male; 5 Teams and 10 individual Female; 38 Juniors (M&F)
I will report about this event during the IPC Meeting in Vienna.

Future competitions

33rd World Championship Freefall Style & Accuracy Landing, 7th Junior World Championship Freefall Style & Accuracy Landing in BANJALUKA – Bosnia-Herzegovina will take place from 15. – 23.08.2014

The number of participants was slightly disappointing!

The Freefall Style and Accuracy Landing were attended by a few number of competitors.

Accuracy Landing

- 65 men
- 45 female
- 18 junior male
- 11 junior female

Freefall Style

- 48 men
- 39 female
- 12 junior male
- 8 junior female

The competition was very well organized.

The electronic equipment (RUSSIA) worked well and was reliable. The scoring section had problems therefore the results were generated often too late and this caused delays during the competition.
