## **PROPOSAL TO AMEND SPORTING CODE SECTION 5, AND FAI CONTROLLER HANDBOOK**

The Sporting Code Section 5 and the FAI Controller handbook state that the FAI controller must check the FAI licences of all those competitors taking part in a First Category Event. This is a very difficult task which is time-consuming and can prove very difficult for the following reasons.

- The FAI licenses can be written in any FAI Oficial language, French English, Spanish and Russian.
- Each country may choose how they produce these licences.
- Some countries do not produce a license but include it in their national Licence.

The FAI web page has a tool where all the NACs may register their competitors. <http://www.fai.org/about-fai/fai-sporting-licences>

The proposal is to modify SC5 and the FAI Controller handbook accordingly so that each NAC must register their competitor in the following web page <http://www.fai.org/about-fai/fai-sporting-licences> and it should be the responsibility of the FAI office to check that each competitor meets the specified requirements of representation in order to include them in the list.

This way the competitor would not need to bring the document to the competition and it could be checked on line, by the FAI Controller, well before the beginning of the event.
