<b>Recommendations for Organisers:</b>	There was a problem with the OmniScore system according to the judging of World Cup and European championship in Artistic Events. The system were adjusted to the rules for FS, and was not suitable for AE. The final scores were posted, but they were incorrect. 	<p>team and the OmniScore crew. He gave them a written excuse and explanation they could give to the sponsors.</p> <p>The organisers did not do well in picking up people at the airports. The organisers had forgotten we were coming! We waited 5 hours in Zagreb before we were picked up. Manuel Almeida from Portugal had to wait 7 (!) hours in Sarajevo before he was picked up. This is unacceptable.</p>
<b>Rule Changes Proposals:</b>	None.
<b>Personal remarks:</b>	<p>All honour to the Event Judges, and the Judges for making the judging so good. They did a very good and impressing job, especially in the compulsory rounds. They prepared for the competition by watching the animated compulsory moves made by Ron Miasnikov, by doing trial - judging for hours and discussing the rules. It was a very competent judging-panel.</p> <p>The competitors gave the judges compliments for good and fair judging ("the best ever") on the last competitors meeting.</p> <p>Mariska (the girl at the organisers office at DZ) was fantastic! She was always in a good mood and nothing was a big enough problem to not be solved. A very service minded and always good working girl.</p>

*According to Sporting Code Section 5, 6.9.1 (11) this is to be sent to the Chair of the Judges Committee and the IPC Technical Secretary within 30 days of the competition completion.*
