

CIVL 2025 PLENARY – ANNEXE 39 V
PROPOSAL BULGARIA: NO CAT 1 EXEMPTIONS

Exemption decisions are published and discussed for rule change

The motivation:

The qualification rules are not perfect. It's possible in some cases a safe and experienced pilot is not able to qualify by the current rules. That's why we have the option to apply for an exemption.

To have predictable and fair qualification for everyone - we must ensure that each exemption case (approved or rejected) is immediately published on the CIVL webpage. This way all other pilots who might be in the same situation will be able to see the decision of the Exemption Committee and decide to apply because (obviously) their case is valid.

The decisions of the Exemption Committee must be discussed at the next CIVL Plenary and all valid cases must be addressed by corresponding proposals from the Exemption Committee.

The proposal:

In Sporting Code Section 7A point 2.2.7 the list of obligations of the Screening Committee to be supplemented with:

- Every exemption decision is published at CIVL webpage.

Date: 7 Mar 2025
