To: Bill Hughes, CIVL President

30th November 2024

Dear Mr. Hughes,

we have the following request for the upcoming plenary in February:

The costs for the European and World Hang Gliding and Paragliding Championships are rising every year. It is becoming increasingly difficult to find organisers for Cat 1 competitions. The entry fees are constantly rising and in future fewer and fewer pilots will be able to afford to take part.

We therefore make the following proposal:

Packed lunches are no longer up to date. Unfortunately, many packed lunches often end up in the rubbish. The pilots or teams can provide their own food, which is often done already. Only drinking water at the start and landing is really important; this should continue to be organised by the organiser.

It would greatly reduce the costs for the organisers.

We ask that these proposals be dealt with and voted on!

With best regards

Björn Klaassen  
Managing Director
