

CIVL 2025 PLENARY – ANNEXE 39 O
PROPOSAL SPAIN: MEDALS FOR ALL PILOTS FROM NATIONS ON PODIUM

Proposal 2 – Spain: Medals for all pilots from the nations on podium in FAI I

During FAI I events, when medals are awarded to the 3 finalist teams, medals are only awarded to the pilots who have scored for the team, normally 3+1, when many nations are made up of more than 4 pilots who do the necessary work for the team during the championship to achieve the final result for the nations.

Spain proposes that medals should be awarded to all pilots from the nations on the podium. We believe that awarding a maximum of 10 or 12 more medals (depending on the winning teams) does not imply a high extra cost.
