

Annex 4 - Jury Handbook Working Group  
Report to CASI 2017

The WG has finalised the revision of the Jury Handbook, with the significant support of Stéphane Malbos, which is here attached for further discussion and approval.

At the CASI mid-year meeting in Wroclaw, there have been long discussions about the role of the international jury at cat-1 FAI events.

Some ASCs nominate the jury and others rely on the organizers for the selection. Some foresee that only the president is on site for the duration of the event and the jurors are remote, others involve jury members for operational activities. All these solutions seem to work very well for the ASCs concerned.

It is obvious and evident that the needs of the various types of competition are too different to have a single definition and the WG strongly recommends to clearly defining the requirements in the Specialised Sections of the Sporting Code.

In addition, we propose to amend SC 5.4.2.6.1 as follows:

Current text

**5.4.2.6.1 Attendance.** Attendance at Jury meetings is compulsory for Jury members, except for special reasons such as illness or emergencies. In such cases, an eligible replacement nominated by the Jury member concerned, or by the President of the ASC or his representative may be accepted by the Jury President. The Event Director and the Claimant have a right to give both written and oral evidence before a jury. Treatment of protests is dealt with in 6.3.

Proposed text

**5.4.2.6.1 Attendance.** Attendance at Jury meetings is compulsory for Jury members, **whether in person or remote**, except for special reasons such as illness or emergencies. In such cases, an eligible replacement nominated by the Jury member concerned, or by the President of the ASC or his representative may be accepted by the Jury President. The Event Director and the Claimant have a right to give both written and oral evidence before a jury. Treatment of protests is dealt with in 6.3.
