

FAI-World Cup F3B 2017

The FAI-World Cup F3B 2017 has been finished with the “42th Oktoberfestpokal” in Munich.

We had 10 competitions in the FAI-calendar.

161 seniors and 2 juniors from 18 nations took part at the FAI-World Cup F3B 2017.

Unfortunately again less pilots took part than in the last years.

I say thanks to all organizers and their helpers for their engagement.

Additional many thanks also to Karl Hinsch and Uwe Schlaffke-Mowinkel for the quick evaluation and publication of the results on F3B.de and on the FAI-homepage.

The actualization of the overall results is mostly finished Monday morning that the pilots and all interested people can see the actual standings promptly.

The World Cup Trophies are not handed out by the FAI; these trophies are generated on private initiative.

Therefore I will take the opportunity to thank all our sponsors:

- Carbon-Werke Weißgerber GmbH & Co.KG, financial support
- Christian Fiedler “CAD CAM Office”, milling the stands
- Thomas Rößner “Solidtech”, extruding the models
- Gerhard Köberlein, painting the models

After 10 FAI-World Cup competitions F3B 2017 the trophies were handed to:

Martin Herrig/GER (2.place), Andreas Herrig/GER (1.place), Andreas Böhlen/SUI (3.place)
(not present)

These pilots are additionally honored at the FAI / CIAM meeting in April 2018 in Lausanne.

Ralf Decker

FAI-World Cup-coordinator F3B
