## **PROPOSALS FOR CHANGES ARTISTIC EVENTS COMPETITION RULES 2011**

### freefall video equipment

para 5.7.2. and 5.7.5. add wording to address change from video tapes to memory cards due to new equipment.

### para 6.3.9. Maximum score Freeflying speed rounds.

Raise maximum score from 25 to 30

At the 2010 WPC Russia, 24 points were scored.

### Freeflying Speed round - VFS

Relation to VFS. Can or should the speed rounds freeflying nurture VFS? At present there is no relation as AE and VFS are 2 separate events with different competitors. For sure it should stay like this in the competition scene, but for training purposes and attracting skydivers into these events a more direct connection could be established.

The catch for AE is that it might loose competitors to VFS which could effectively kill the AE events. A possible way of circumventing this is to create a separate medal for VFS2-way within freeflying. You would get medals for VFS2, the artistic freeflying, and overall freeflying. Like in CP, you have to compete in speed, distance and accuracy, for which you have separate medals and an overall medal. This way, AE does not risk losing AE competitors to the VFS front and can still serve a nursing pool for VFS.

### Electronic scoring system

Add: "electronic scoring system must be used" (like Formation Skydiving). It is currently mentioned in para 6.6.1. but not very clear.

The IPC will move towards scoring systems for all events.

### Addenda A

Update the dive pool for both events with at least 2 new compulsories each

-----

Separate discussion item: proposal from UK competitor. This proposal would, if accepted, seriously change the current competition rules. The committee of course is willing to discuss this and put in formally on the IPC agenda, it is reluctant at present to integrate it fully into the committee's "proposals for change 2011" document.

-----

### Sporting Code - Section 5

para 4.6.6. (2): Number of Judge, change from 14 to 9

(5 Judges, 2 Event Judges, 1 Chief Judge, 1 Chief Judge of Training)

Even with 19 AE teams in Menzelinsk WPC 20101 this worked satisfactorily.
