

2002 F3D Subcommittee Report

Bob Brown, F3D S/C Chairman

During the past year F3D Pylon Racing exhibited considerable growth in numbers of competitors and also number of recognized competitions. This growth can be attributed to the establishment of the Eurocup Competition. One hundred and two competitors from ten countries enjoyed the competition. Congratulations are extended to the 2002 Champion Robbert van den Bosch from Holland. Paolo Mucedola and Carlo Perella from Italy placed second and third respectively. Gratitude is expressed to the clubs in the Czech Republic, France, Germany, and Italy for hosting the events.

The preliminary effort displayed by the Czech Republic exhibits their intent to host a very positive 2003 World Championship. This contest should certainly be a worthwhile event to attend. The contest information can be obtained at this web site, www.wcf3d.cz. It must be pointed out that the Czech Republic has worked very hard to produce this contest within the FAI financial constraints. It is suggested that these limits be reviewed due to the organizational costs of this type of competition.
