

REPORT ON SPACE MODELS WORLD CUP 2009

By Srdjan D. Pelagic, dipl.ing.

Novi Sad (Serbia), 31 October, 2009

Space Models World Cup competitions take place continuously some 20 years. This competition season, 2009, was one of the best so far. There were 22 World Cup events in 17 countries in America, Asia and Europe registered to the FAI Contest Calendar 2009 – Space Models. Only two of them were cancelled because of organisational reasons (in Suceava - Romania and in Pljevlja - Montenegro). All the rest were held successfully. In several events some classes were neither registered to the Contest Calendar nor flown. The organizers were very correct in preparing and sending results lists in term of days, so the current placing lists for the first time were published after each event. This contributed very much to the dynamics of this competition.

In all events participated competitors from 24 countries from America, Asia and Europe (going from west to east): USA, Canada, Great Britain, Spain, Switzerland, Germany, Italy, Latvia, Lithuania, Estonia, Poland, Czech Republic, Slovak Republic, Slovenia, Spain, Serbia, Macedonia, Romania, Moldova, Bulgaria, Belarus, Ukraine, Russia, Uzbekistan and Kazakhstan. Underlined are countries that also were the organizers of the SM World Cup events.

Participation per SM World Cup classes is given in the table below:

Complete tables with allocated points for all sportsmen having at least one official flight are available in electronic form from the FAI office or SM SC Chairman. All of them were distributed to all FAI SM lists and lists of WCup organizers.

CONCLUSION: After several years of very intensive progress came „saturation“ with very small variations of number of contests and participants with respect to previous year (2008). One of the reasons is because three years there was number of classes for WSMChs and EuSMChs limited to five and set of classes changed from one to another Championships. The consequences of these uncertainties now become evident. Fortunately this rule is corrected starting from 2010 and we may expect new intensive progress in years to come.
